Burg (Y81): The town contains one motorized infantry regiment, one armored detachment, and one motorized artillery detachment, but on 9 April these units were represented in Burg only by rear echelon troops, the majority having gone to Altengrabow (ZOC) for training. Strong security measures prevented close observation at Altengrabow, but heavy firing of artillery and tanks could be heard. It is alleged that horse-drawn artillery is participating.

b. Observed in Magdeburg between 6 and 8 April:

Encke Barracks - Headquarters staff. Mobile radio station in yard.  
Friedrichstadt - Approximately 500 mechanized troops. Two T-34 tanks in the compound.  
Artillery Barracks - A few rear echelon troops wearing black tabs with red piping. No vehicle traffic noted.  
Air Force Barracks - Artillery troops in training. Two 105 mm howitzers with single tires, plus Stalin system prime movers with one-axle bogie trailers. Guns operated by gun chief and 8 men.
